Career Objective:

Enthusiastic and quick-learning Information Technology student seeking opportunities to apply and enhance skills in full-stack and intelligent system development. Passionate about software development, AI-based applications, and IoT systems, with a strong foundation in C, Java, Python, and web technologies.

Core Competencies:

- Frontend: HTML, CSS, JavaScript
- Backend: Java, Python (Basic)
- Programming Languages: Java, JavaScript, C, python
- Database: MySQL, MongoDB
- Tools: VS Code, Git, GitHub.
- IT Essentials: Data Structures & Algorithms, OOP, Networking Fundamentals, IoT Fundamentals

Key Strengths:

- Team & individual contributor
- Leadership
- Problem solver
- Time management
- Adaptability

Areas of Interest:

- Full-Stack Development
- Object-Oriented Programming
- Data Structures & Algorithms
- Backend Development

Co-Curricular Activities:

- Participated in Smart India Hackathon (2024)
- Involved in team-based technical activities and project discussions
- Industrial Visit – Airobosoft Products and Services LLP (Oct 2024) Visited the organization to understand real-time project development, software lifecycle processes, and industry-level technical practices.

Languages Known:

- Tamil: R ,W, S.
- English: R ,W, S.

Education:

B Tech-Information Technology (2023-2027)

Sona College of Technology, Salem

CGPA: 8.44/10

HSC (2023)

ERK Higher Secondary School, Salem.

Percentage: 89.5%

SSLC (2021)

ERK Higher Secondary School, Salem.

ALL PASS

Internship:

Unified Mentor (Feb 2025) – Web Development Intern

Tools Used: HTML, CSS, JavaScript, Git, VS Code

Worked on developing and enhancing responsive web applications as part of the frontend team. Assisted in implementing features, debugging issues, and optimizing user interface performance. Gained hands-on experience in real-world web development and deployment practices.

Grow Technology (Dec 2025) – Software Development Intern

Tools Used: PHP, XAMPP, MySQL, phpMyAdmin

Contributed to software development tasks in a real-time project environment. Assisted in implementing application functionalities, testing modules, and resolving technical issues. Gained exposure to professional development workflows and collaborative team practices.

Projects:

Blog Management System (Dec 2025)

Tools: PHP, MySQL, XAMPP (Apache), phpMyAdmin, HTML, CSS

Developed a dynamic blog web application using PHP and MySQL for creating, editing, and deleting blog posts. Managed the database using phpMyAdmin and deployed the application locally using Apache server in XAMPP.

Weather Prediction App (July 2025)

Tools: HTML, CSS, JavaScript, OpenWeather API.

Created a web-based weather application that retrieves real-time weather data using the OpenWeather API and displays it through a responsive user interface.

Certifications & Professional Training:

- IoT – NPTEL (Elite)
- Design Thinking – NPTEL (Elite)
- Introduction to Machine learning – Infosys Springboard
- Introduction to Information Technology and AWS Cloud-AWS
